Correction to: Stat Methods Appl (2014) 23:501–518 <https://doi.org/10.1007/s10260-014-0282-7>

The authors have discovered an incorrect statement:

On page 503 the sentence “If (2) holds, we say that P fails to be disintegrable in the partition π .” which appears immediately after Eq. (2) is false. Fortunately, the false claim has no bearing on the results of the paper. The paper has been corrected to remove the incorrect statement along with the former Eq. (2) and replace them with more accurate statements.

The original article has been corrected.
