

M. GRANGER MORGAN

Curriculum Vitae

BORN: 1941 March 17, Hanover, New Hampshire
CITIZENSHIP: U.S.A.
FAMILY: Elizabeth Nichols Morgan (wife) b 1941, m 1963
Kristiana M. Provasnik (daughter) b 1968, m 1991 to Stephen Provasnik
Frederick M. Morgan (son) b 1971, m 1995 to Debbie Bellinger

Education

- University of California at San Diego, 1965-1969, Ph.D., Department of Applied Physics and Information Science.
- University of California at Berkeley, 1965, graduate work in modern Latin American History.
- Cornell University, 1963-1965, M.S., Program in Astronomy and Space Science. Experimental thesis work at Arecibo Ionospheric Observatory.
- Harvard College, 1959-1963, B.A., concentrated in Physics, graduated cum laude in General Studies.

Professional Positions

2015 - Hammerschlag Chair University Professor

2003 - Present University Professor.

1996 – 2015 Lord Chair Professor of Engineering.

1980 - Present Professor of Engineering and Public Policy and of Electrical and Computer Engineering. Also Professor in The H. John Heinz III College.

1980 - 2014 Founding Head, Department of Engineering and Public Policy.

2012 - 2014 Founding Director, Wilton E. Scott Institute for Energy Innovation, Carnegie Mellon University.

1986 - 1995 Director of the Carnegie Mellon Program in International Peace and Security.

1981 - 1982 Acting Head (Planning and Recruiting), Department of Electrical Engineering, Carnegie Mellon University, Pittsburgh, PA.

1977 - 1980 Head, Department of Engineering and Public Policy and Associate Professor of Electrical Engineering and Engineering and Public Policy, Carnegie Mellon University, Pittsburgh, PA.

1974 - 1977 Assistant Professor of Electrical Engineering and Engineering and Public Policy (EPP) and Coordinator of the Graduate Program in EPP, Carnegie Mellon University, Pittsburgh, PA.

1974 Visiting Associate Physicist (May - November) Brookhaven National Laboratory, Associated Universities, Inc., Upton, NY.

1972 - 1974	Associate Program Director and later Program Director, Division of Computer Research, National Science Foundation, Washington, D.C.
1970 - 1972	Lecturer (1970-1971) and Acting Assistant Professor (1971-1972), Department of Applied Physics and Information Science, University of California at San Diego.
1969 - 1972	Director, Computer Jobs through Training Project, A job vocational and pre-vocational motivational program for disadvantaged high school students and young adults, University of California at San Diego.
1959 - 1969	Research Assistant, Graduate Research Assistant and NASA Fellow at: Dartmouth College, Jicamarca Radar Observatory, Cornell University, Arecibo Observatory, and University of California at San Diego.

Professional Activities and Memberships

Current:

- Member of the National Academy of Sciences
- Member of the Electricity Advisory Committee, Department of Energy
- Member of the Energy and Environment Directorate Advisory Committee, Battelle Memorial Institute, Pacific Northwest Division, Pacific Northwest National Laboratory, Department of Energy
- Chair of the Scientific and Technical Council of the International Risk Governance Council
- Member of the Scientific Committee of the Center for Risk Analysis and Risk Governance (CRAG), École Polytechnique Fédérale de Lausanne (EPFL)
- Member of the Scientific Advisory Board of the E.ON Energy Research Center, RWTH Aachen University
- Member of the Clean Energy Expert Advisory Committee, Environmental Defense Fund
- Co-chair of the NRC Roundtable on Risk, Resilience, and Extreme Events Committee
- Member of the NRC Report Review Committee (will become NAS chair in 2016)
- Member of the NRC Committee for the Division on Engineering and Physical Sciences
- Member of the following professional societies:
 - American Association for the Advancement of Science - Fellow; Past member of the Editorial Board, *Science* 86; Past member of committee on Science and International Security
 - Life Member of the American Geophysical Union
 - Institute of Electrical and Electronic Engineers – Fellow and Life Member; Past member of the Editorial Board, *IEEE Spectrum*; Past member of the Publications Board; Past member of the Editorial Board, *The Proceedings*; Past Editor IEEE Press Reprint Books; Past Member, Committee on Man and Radiation; Past Member of the Editorial Board, *The Institute*
 - Society for Risk Analysis- Fellow; Member of the Editorial Board, *Risk Analysis*; Past Member of the Board; Past member of the Awards and other Committees

- Past Member of the Board of Directors, Association of Public Policy and Management and, Past Book Review Editor for *JPP&M* in the area of Technology and Policy
- Member of the Board of Advisors, *Scientific American*
- Member of Advisory Board, *Innovations: Technology/Government/Globalization*

Past (selected list):

- Member of the National Academies Keck Futures Initiative Steering Committee on Ecosystem Services
- Member of the NRC Committee on Science for EPA's Future
- Member of Paul Scherrer Institute Evaluation Committee in Energy Policy
- Member of the Advisory Board for the Center for Science, Technology and Policy (CSTEP), Bangalore, India
- Member of the World Economic Forum Global Agenda Council on New Energy Architecture
- Member of the Task Force on Innovation for China's Environmentally Friendly Society of the China Council for International Cooperation on Environment and Development
- Member of the Intelligent Transportation Systems (ITS) Advisory Committee, U.S. Department of Transportation
- Member of the Advisory Board of the Competence Center Environment and Sustainability of the ETH Domain
- Member of Leadership Board for the Sustainable Energy, Environment and Economy, University of Calgary
- Chair of the NRC Committee on Enhancing the Robustness and Resilience of Electrical Transmission and Distribution in the United States to Terrorist Attack
- Member of the Environmental Technology Advisory Board, Alcoa Corp.
- Member of Pittsburgh Indicators Steering Committee
- Member of the Academic Committee of the Center for Crisis Management Research, Tsinghua University
- Past Chair of the EPA Science Advisory Board
- Past Chair and past member of the Advisory Council of the Electric Power Research Institute
- Recent past Member of the Visiting Committee of Engineering Systems Division, MIT; the Department of Management Science and Engineering, Stanford; the Department of Environmental Sciences (D-UWIS) at ETH Zurich; EAWAG; and the International Advisory Panel for the Division of Engineering & Technology Management (D-ETM), National University of Singapore
- Program advisory boards at Heinz Center, RFF, IIASA, Stanford, TUDelft and other Dutch technology and policy programs, and MISTRA
- Member of the recently completed NRC Study on Geoengineering Climate: Technical Evaluation and Discussion of Impacts Committee
- Past Chair of the Advisory Council of the Electric Power Research Institute

- Member of the Electric Power Research Institute external Scientific Advisory Committee (SAC) on Environmental Risk Assessment and Communication

Research Interests

Research interests are focused on policy problems in which technical and scientific issues play a central role. Methodological interests include problems in the integrated analysis of large complex systems; problems in the characterization and treatment of uncertainty; problems in the improvement of regulation; and selected issues in risk analysis and risk communication. Application areas of current interest include global climate change; decarbonization and the future of the energy system, especially electric power; risk analysis; health and environmental impacts of energy systems; security aspects of engineered civil systems; national R&D policy; and a number of general policy, management, and human resource issues involving science and technology.

Contributions to Books

- Authored two chapters for the undergraduate text *Physical Science Today*, CRM Books, 1973.
- Authored a Commentary (93-95) on M.H. Glantz, J. Robinson and M.E. Krenz, "Climate-Related Impact Studies: A Review of Past Experiences", in *Carbon Dioxide Review 1982*, William C. Clark, ed., Oxford University Press, 1982.
- Authored Chapter 8, "Uncertainty and quantitative assessment in risk management", 111-129, in Joseph V. Rodricks and Robert G. Tardiff, *Assessment and Management of Chemical Risks*, ACS Symposium Series 239, American Chemical Society, 1984.
- Authored Final Chapter, "Risk assessment and risk management decision-making for chemical exposures", in Gary Blau and Brock Neely (eds.), *Environmental Exposure from Chemicals*, CRC Press, Vol. II, 107-143, 1985.
- Principal author of the National Research Council Committee on Uranium Mill Tailings Committee's report titled *Scientific Basis for Risk Management of Uranium Mill Tailings*, National Academy Press, 264pp, 1986.
- Authored "Electromagnetic Fields", 172-173, in *McGraw-Hill Yearbook of Science and Technology*, 1987.
- Co-Authored with Gordon Hester, Indira Nair and Keith Florig, Chapter 18, "Small Group Studies of Regulatory Decision Making for Power-Frequency Electric and Magnetic Fields", 415-457, in *Communicating Risks to the Public*, R.E. Kasperson and P.M. Stallen (eds.), Kluwer Academic Publishers, 1990.
- A major contributor to the National Academy of Sciences' Committee on Science, Engineering and Public Policy's report titled *Finding Common Ground: U.S. export controls in a changed global environment*, National Academy Press, 390pp, 1991.
- Co-Authored with Mitchel Wallerstein, "Controlling the High-Technology Militarization of the Developing World", 285-299 in *The Proliferation of Advanced Weaponry: Technology, Motivations, and Responses*, W. Thomas Wander and Eric H. Arnett (eds.), American Association for the Advancement of Science, published in conjunction with the 1992 AAAS Colloquium on Science and Security, 1992.
- M. Granger Morgan, "Power-Frequency Electric and Magnetic Fields: Issues of risk management and risk communication," 297-319, in *Biological Effects of Electric and Magnetic Fields: Clinical applications and therapeutic effects*, Volume 2, D.O. Carpenter and S. Ayapetyan (eds.), Academic Press, Inc., San Diego, CA, 1994.
- M. Granger Morgan and Mitchel Wallerstein, "Controlling the High-Technology Militarization of the Developing World", in *Regional Conflicts: The challenge to U.S.-Russian Cooperation*, J.E. Goodby (ed.), Oxford University Press, New York, 1995.
- M. Granger Morgan, "Transmission Lines," in *Encyclopedia of Conservation and Environmentalism*, R. Paehlke (ed.), Garland Publishing, New York, 639-640, 1995.
- M. Granger Morgan, "Quantitative Risk Ranking: More promise than Hattis and Goble suggest," in *Worst Things First? The debate over risk-based national environmental priorities*, A.M. Finkel and D. Golding (eds.), Johns Hopkins University Press, 368pp, 1995.
- M. Granger Morgan, Baruch Fischhoff, Lester Lave, and Paul Fischbeck, "A Proposal for Ranking Risk within Federal Agencies," in *Comparing Environmental Risks: Tools for setting government priorities*, J. Clarence Davies (ed.), 111-148, Resources for the Future, 1996.

- Chaired the committee, wrote extensive sections, and edited report, *Shopping for Safety: Providing consumer automotive safety information*, Transportation Research Board, National Research Council, National Academy Press, 160pp, 1996.
- M. Granger Morgan, "Policy Analysis for Decisionmaking About Climate Change," in *Economic and Policy Issues in Climate Change*, William D. Nordhaus (ed.), Resources for the Future, 25-58, 1998.
- M. Granger Morgan, "The Role of Research and New Technology in a Restructured Networked Energy System," in *Designing Competitive Electricity Markets*, Hung-po Chao and Hillard G. Huntington (eds.), Kluwer Academic Publishers, 141-158, 1998.
- Made substantial contributions to several sections of the report *Our Common Journey: A transition toward sustainability*, a report of the Board on Sustainable Development, National Research Council, National Academy Press, 384pp, 1999.
- Made substantial contributions to *Climate Change Impacts on the United States*, Overview Report of the National Assessment Synthesis Team for the US National Assessment of the Potential Consequences of Climate Variability and Change, Cambridge University Press, 154pp, 2000.

Television

Host of the two hour show "Frontiers of High Technology" produced by IEEE *Spectrum* and aired nationwide on the Learning Channel in 1986 November. Sole guest on half hour edition of "The Editors", WQED-TV, on energy policy, April 7, 1989. Miscellaneous shorter appearances. Spokesman on promotional spot for IEEE Membership, 1994.

Book Reviews

Author of numerous book reviews. For several years served as science, technology, and policy book reviewer for the *Journal of Public Policy and Management* that involved about 20 reviews per year. Have also been a regular reviewer for *IEEE Spectrum*. The following are selected examples:

- *Science and Technology Advice to the President, Congress and Judiciary*, William T. Golden (ed.) reviewed in *IEEE Spectrum*, March 1989.
- *Current of Death: Power lines, computer terminals, and the attempt to cover up their threat to your health* by Paul Brodeur, Simon and Schuster, 1989, reviewed in *Scientific American*, 118-123, April 1990.

- *Science and the Navy: The history of the office of Naval Research*, Harvey M. Sapolsky, Princeton, 1990, reviewed in *IEEE Spectrum*, 11, February 1991.
- *Technologies Without Boundaries: On telecommunications in a global age*, Ithiel de Sola Pool, edited by Eli M. Noam, Harvard, 1990, reviewed in *IEEE Spectrum*, 6, June 1991.
- *Steinmetz: Engineer and Socialist* by Ronald R. Kline, The Johns Hopkins University Press, 1992, reviewed in *American Scientist*, 182-183, March-April 1993.
- *Elements of Risk: The politics of radon* by Leonard A. Cole, AAAS Press, reviewed in *Chemical and Engineering News*, 35-36, October 11, 1993.
- *The Highest Stakes: The economic foundations of the next security system*, A BRIE project with chapters contributed by Wayne Sandholtz, Michael Borrus, John Zysman, Oxford University Press, 1992, reviewed in *IEEE Spectrum*, 16-18, September 1993.
- *The Elusive Transformation: Science, Technology and the Evolution of International Politics*, Eugene B. Skolnikoff, Princeton University Press, 1993, reviewed in *IEEE Spectrum*, 14-15, December 1993.
- *Phantom Risk: Scientific inference and the law*, Kenneth R. Foster, David E. Beirnsstein, and Peter W. Huber (eds.), MIT Press, 1993, reviewed in *IEEE Spectrum*, 12, June 1994.
- *Compass and Gyroscope: Integrating science and politics for the environment* by Kai N. Lee, Island Press, 1993, reviewed in *American Scientist*, 475-476, September-October 1994.
- *Soothing the Establishment: The impact of foreign-born scientists and engineers* by David S. North, University Press of America, 1995, reviewed in *IEEE Spectrum*, 12-14, April 1996.
- *Endless Frontier: Vannevar Bush, engineer of the American century* by G. Pascal Zachary, The Free Press, 1997, reviewed in *IEEE Spectrum*, March 1998.
- *Consuming Power, A social history of American energies* by David E. Nye, MIT Press, 1997, reviewed in *Science*, April 24, 1998.
- *The Invention that Changed the World: How a small group of radar pioneers won the second world war and launched a technical revolution* by Robert Buder, Simon and Schuster, 1996, reviewed in *IEEE Spectrum*, August 1998. Reviewed with my father, Millett G. Morgan.
- *Pasteur's Quadrant: Basic Science and Technological Innovation* by Donald E. Stokes, Brookings Institution Press, 1997. Reviewed in *IEEE Spectrum*, January 1999.
- *Forged Consensus: Science, technology and economic policy in the United States, 1921-1953* by David M. Hart, Princeton University Press, 1998, reviewed in *IEEE Spectrum*, June 1999.
- *The Sun, the Genome and the Internet: Tools of scientific revolutions* by Freeman J. Dyson, Oxford University Press, 1999, reviewed in *IEEE Spectrum*, November 1999.
- *The Collapse of the Kyoto Protocol: And the struggle to slow global warming* by David G. Victor, Princeton University Press, 2001, reviewed in *IEEE Spectrum*, July 2001.
- *Uncertain Science...Uncertain World* by Henry N. Pollack, Cambridge University Press, 2003, reviewed in *Climatic Change*, 65, 2004.
- *What We Know About Climate Change* by Kerry Emanuel, MIT Press, 2007, reviewed in *IEEE Spectrum*, 2007.

- *Improving Energy Decisions: Towards better scientific policy advice for a safe and secure future energy system*, reviewed for Springer International Publishing Switzerland, 2015.

Awards and Recognition

- Carnegie Institute of Technology Ladd Award for Outstanding Young Faculty, 1976.
- U.S. Environmental Protection Science Advisory Board "Hit List" (under Gorsuch), citation: "Get Him Out", 1982.
- "Outstanding Editorial Board Member", *IEEE Spectrum*, 1983, 1986 and 1988.
- Listed in *American Men and Women in Sciences*.
- Life Fellow of IEEE.
- Carnegie Mellon University Robert Doherty Prize Award for "substantial and sustained contributions to excellence in education", 1989.
- Fellow of SRA.
- Fellow of AAAS.
- 1995 Society for Risk Analysis Distinguished Achievement Award.
- 1996 Lord Chaired Professor of Engineering, Carnegie Mellon.
- 2002 Designated "National Associate" of the U.S. National Academies.
- 2003 named "University Professor," Carnegie Mellon University
- 2007 elected to the National Academy of Sciences.
- 2008 recipient of the EPA Federal Advisory Committee Act (FACA) Impact Award in recognition for efforts as Chairman of the EPA's Science Advisory Board.
- 2009 Society for Risk Analysis Outstanding Educator Award
- 2011 American Physical Society Joseph A. Burton Forum Award
- 2011 American Society for Engineering Education Chester F. Carlson Award
- Carnegie Mellon University Barbara Lazarus Award for Graduate Student and Junior Faculty Mentoring, 2014

Ph.D. Theses

Played a significant role in the supervision of the following Ph.D. theses at Carnegie Mellon:

1. Alex Hills, "Television and Telephone Service in Alaskan Villages: A technical, economic, and organizational analysis," 1979 June.
2. Steven Goldstein, "Uncertainty in Life Cycle Demand and the Preference Between Flexible and Dedicated Mass-Production Systems", 1981 December.

3. H. Gilbert Miller, "The Reliability and Cost Impacts of Alternative Levels of Centralization in Electric Power Systems", 1981 December.
4. William R. Rish, "Characterizing Uncertainty in Estimating Impacts for Energy Systems: Two case studies," successfully defended 1981 June, requirements completed 1982 October.
5. Max Henrion, "The Value of Knowing How Little You Know", 1982 May.
6. William P. Marberg, "A Technical and Regulatory Assessment of Direct Broadcast Satellite Systems", 1983 January.
7. Felix B. "Yemisi" Dayo, "Choice Between Alternative Nuclear Energy Systems: A Decision Analytical Model for Less Developed Countries", 1983 January.
8. Deborah A.L. Amaral, "Estimating Uncertainty in Policy Analysis: Health Effects from Inhaled Sulfur Oxides", 1983 August.
9. John D. Graham, "Automobile Safety: An Investigation of Occupant-Protection Policies", 1983 September.
10. Leonard Wojcik, "Separation Requirements for Protection of High Altitude Satellites for Co-orbital Anti-satellites Weapons", 1984 December.
11. John Moteff, "The Advanced Gas Turbine and the Uncooled Diesel: Maximizing the potential benefits from two advanced engine systems", 1985 August.
12. Ben P. Wise, "An Experimental Comparison of Uncertain Inference Systems", 1986 June.
13. Charles F. Wiecha, "An Empirical Study of How Visual Programming Aids in Comprehending Quantitative Policy Models", 1986 June.
14. Theresa Mullin, "Understanding and Supporting the Process of Probabilistic-Estimation", 1986 September.
15. H. Keith Florig, "Population Exposures to Power-Frequency Fields: Concepts, components and control", 1986 November.
16. Daryl Ditz, "Courting Needless Risks: The United States Environmental Protection Agency and hazardous waste incineration at sea", 1987 September.
17. Grace Hammonds, "Crowd-Pleasing Cryptosystems: Utility Evaluations for Standardization Decisions", 1987 November.
18. Susan R. Bereiter, "Looking for Trouble: Troubleshooters' Information Utilization in Computer-Controlled Manufacturing Systems", 1988 April.
19. Eric H. Arnett, "Gunboat Diplomacy and the Bomb: Nuclear Proliferation and the U.S. Navy", 1988 July.
20. Martin Weiss, "Technological Choice in Voluntary Standards Committees: An empirical analysis", 1988 December.
21. Ike Ezekoye, "An Examination of the Prospects for Widescale Use of Methanol in Motor Fuels: Technical, economic and policy issues", 1989 May.
22. Gordon Hester, "Three Perspectives on Institutional Arrangement for Making Decisions About Managing Technological Risks", 1989 December.
23. Urbano A. Lopez Gomez, "Communicating Very Low Probability Events", 1990 May.

24. Cynthia J. Atman, "Network Structures as a Foundation for Risk Communication: An investigation of structure and format differences", 1990 August.
25. Kathryn Jackson, "Building a Better Mouse: Examination of product development processes product design quality in the cursor control industry", 1990 August.
26. Ann H. Bostrom, "A Mental Models Approach to Exploring Perceptions of Hazardous Processes", 1990 September.
27. David P. Reed, "An Engineering, Economic and Public Policy Analysis of Integrated Broadband Networks in Subscriber Loop: Interdisciplinary Implications for the Telephone Company/Cable Television Cross Ownership Debate", 1991 May.
28. Jayant Kalagnanam, "The Qualitative Analysis of Systems Behavior", 1991 May.
29. Jon Merz, "Toward a Standard of Disclosure for Medical Informed Consent: Development and demonstration of a decision-analytic methodology", 1991 August.
30. Lan Xue, "Technology Choice and Manufacturing Performance: An empirical analysis of the implementation of computer integrated manufacturing technologies", 1991 August.
31. Michael Maharik, "Public Perceptions of the Risks of an Unfamiliar Technology: The case of using nuclear energy sources for space missions", 1992 May.
32. Robert Axtell, "Theory of Model Aggregation for Dynamical Systems with Application to Problems of Global Change, 1992 December.
33. Xiaolin Xi, "Energy System Development and CO₂ Emissions in China", 1992 December.
34. Marek J. Druzdzel, "Probabilistic Reasoning in Decision Support Systems: From computation to common sense", 1992 December.
35. Jun Zhang, "A Parametric Approach to the Quantitative Assessment of Possible Health Risks from Power Frequency Fields", 1993 May.
36. Anand Patwardhan, "Incorporating Time Dynamics and Uncertainty in Policy Analysis: Evaluating responses to sea-level change", 1993 May.
37. Hector Salgado, "A Simulation Analysis on Dynamic Channel Assignment for Open Access Personal Communication Services", 1993 December.
38. Irving Lachow, "The Global Positioning System: Managing the tension between defense needs and civilian applications", 1994 May.
39. Hubert Vasseur, "Manufacturing Quality and Process Precision: A cost-based analysis", 1994 August.
40. Milind Kandlikar, "Reconciling Uncertainties in Integrated Science and Policy Models: Applications to global climate change", 1994 December.
